Jharkhand..State
India.

Dear Mrs. Raffaella Merlini,

New Year Wishes from Sr. Nirmala Therese.
C.I.C.

I ask pardon for my late response. I got your greetings in the month of January. But we are not allowed to have a direct contact with any benefactors. So I delayed. Few months ago only I got the permission to reply. So I do. Here I thank you from my heart for having keeping on this much patience and pity. Your offer helped our children. They are very grateful to you. I want to present the background of our children.

Jamuniatana is a small village 40 kilometres from Garhwa town. This village is fully surrounded by dense forest, where raxalites live. It is a rocky place also. Water facilities also very less. The economic background of the children is very poor. The extreme climate (hot and cold) makes the people to get sickness. Hospital is minimum 40 kms. far. There is no travel facilities, no job availability, no industries near by. So once in a year they crop paddy or wheat. They make small kitchen garden to get vegetables.

We the sisters also live with all these difficulties. We work for the poor, marginalized, and illiterate people.
